Be Thankful We're Out
Europe Must Settle
Then Another War
Lloyd George Will Tell You
Current Events

—By Arthur Brisbane
Copyright, 1935, by Star Company.
UNLESS the Powers of Europe, organized for the protection of society and its laws, change their methods, disorder and anarchy will take charge over there.
France tells Germany what she must do, how many billions in gold she must find some where. France delivers his usual patriotic Sunday speech. Little Holland, wiser, places extra guards along her frontiers that trouble from Germany may not cross over.

WHILE FRANCE tells Germany she must pay, Germans spend Sunday shooting each other. Catholic South Germany is hailing King in Bavaria.
Paris, unable to see the real danger in Germany and Russia, worries about a few thousand "Bols" at home, and is strict about foreigners.
Thirty thousand men in Vienna, parading in military formation, denounce France.

ENGLAND PAYS OUT billions to the unemployed to keep down discontent. She taxes her rich men as no other European nation would dare do and as this nation COULD not do if it tried. (Because the rich men would not allow it.)
But even England is far from safe or happy. Her unemployed daily increase in number, with other nations unable to buy from English factories. It is estimated that 1,600,000 men will be idle at Christmas.

WITH PAPER MONEY in the trillions, with false rain-bow promises about reparations in tons of gold billions, the wild day has been put off. But Europe MUST SETTLE for that war. No nation is going to pay the losses of any other. Germany has succeeded in making it forever impossible for France to collect what she might have collected with common sense at first. And Germany has ruined herself in the process of thwarting France. These things Lloyd George will soon be telling you in his speeches here.

CHINA THREATENS to back out of the League of Nations, which lends a comic opera touch. We should have sense enough to thank China for coming, but we are safely out, despite the efforts of many idiots. And we should know enough to STAY out.

WHAT WILL HAPPEN eventually? The usual thing. Tons of millions of men cannot be kept in perpetual economic slavery. The British Empire with all its power, unable to keep Ireland down, had to grant freedom after a 700 years' fight.
Tens of millions of trained men in Germany, Austria and Russia will overflow western Europe. There will come another shifting of cards, of boundaries, and of Powers.

AND the proceedings will be complicated by Communist and other social troubles and experiments and by the use of fighting machinery new to the world, making victory depend on chemistry, on builders of gas engines and on poisonous gas, heavier than air.
The world is in a state of discord and international hatred.

HUSBAND WON THIS GIRL AS 'SINGLE MAN'

International Newsphoto.
MILDRED ADAMS

After she wedded Colonel Samuel L. James, wealthy New York sportsman, she learned he was already married. He then asserted to her of support, she says, but repudiated the agreement, and now she has brought suit for \$250,000.

Made worse by scientific knowledge misapplied.

THE BUSINESS of this country is to protect its own, keep ready to repel trouble from over the sea, and deal with the new problems.

We have our problems. You see the Governor of one State calling out 100,000 men to keep the citizens from voting the Ku Klux into power, after the State's highest court authorizes the election.

This is no time for sloppy theories urging this country to save Europe when Europe declines to save herself.

THE REV. ARTHUR WILDE, Swendenborgian, says the Garden of Eden was a state of mind. So is everything else, including happiness and misery. Episcopia, deformed, and a slave, was happy. Croesus, rolling in gold, miserable, worried. Nothing is real. All wealth, old, diamonds, the sea and stars, our own bodies, represent nothing more solid than electrons and protons, made of negative and positive electricity, locked up in atoms that vary in construction, according to the element composed.

The elements are interchangeable. Matter has no existence. Mind and its states are the only real things, the real universe. There is no big, no little, no beginning, no end. In fact, it's all quite confusing.

TWO MANY unselfish patriots are working for the people. For every twelve taxpayers there is one man or woman on a national, State or city payroll; 2,400,000 is the total number of workers for the public. Their salaries amount to four thousand million dollars a year.

After she discovered that her supposed husband was the mate of somebody else, says the plaintiff, he agreed to provide, maintain and support her during the remainder of her natural life in accordance with his means and position, and that fortune, estimated at \$100,000.

May 7, 1932, however, Colonel James, according to Miss Adams, repudiated the agreement, which he repudiated the agreement.

WIFE NO. 2 SUES SPORTSMAN FOR \$250,000

New York, Oct. 2.—Mildred Adams of No. 304 West Eighty-fourth street began suit in the Supreme Court against Colonel Samuel L. James, sportsman, racehorse owner and handiworker of national reputation, for \$250,000 damages.

According to the complaint, they met in December, 1917, in New Orleans, and soon afterward the colonel, professing great love and affection for the plaintiff, invited her to marry him.

It was in January, 1918, according to the complaint, at Hot Springs, Ark., that the promise to marry was made.

The plaintiff had journeyed to Hot Springs, alleges Miss Adams, at the solicitation and request of the defendant, and thereafter to the city of New York, where the plaintiff made her home at the defendant's request, and the defendant, during the period between December, 1917, and the date of their marriage, May 10, 1918, was devoted and generous to the plaintiff.

He made her gifts of large sums of money, automobiles, jewelry, clothes and other presents.

HEATED GENUINELY.
According to the plaintiff, the marriage suited to was only a ceremonial form of marriage before a person represented by the defendant and believed by the plaintiff to be Peter T. Barlow, a city magistrate of the city of New York.

Miss Adams makes it clear that no bona fide marriage took place. She says that she later learned that Colonel James at the time of the ceremony was a married man.

FORMER N. Y. GIRL.
WEDS LORD LEIGH
London, Oct. 2.—Miss Mary Campbell, formerly of New York, daughter of the late Alexander Campbell, was married today to Lord Leigh, formerly the Hon. Francis Dudley Leigh, who succeeded to the title on the death of his father in 1908. The ceremony was performed by St. Mary's Church, North Audley street.

EDFORD FIRE IMPERILS S. to London Air Mail Service

TOP TO BE REPAIRED IN 2 DAYS

Giant Flier Being Built in Germany To Be Used in Fast Flights

St. Louis, Oct. 2 (A.P.).—Rear Admiral William A. Moffett, chief of the Bureau of Aeronautics of the United States Navy, said just before his departure in the ZR-1 today that when the ZR-3, under construction in Germany, was completed, it would be put in mail service between New York and London on a schedule of two days.

The next long flight of the ZR-1 will be from Lakeland, N. J., to Panama and return, via Cuba.

ZR-1 in St. Louis; Starts Return Voyage
St. Louis, Oct. 2 (A.P.).—The navy dirigible ZR-1, largest aircraft in the world, on its first long-distance flight, from Lakeland, N. J., took off over Illinois early today en route to the international air races.

The ZR-1, Giant dirigible, arrived here shortly before dawn, and after cruising about the city until day light, headed north towards St. Louis flying high at Bridgmont.

Radio messages received from the airship during the night reported all was well and that nothing on board had occurred on the cruise. The motors of the giant ship were running smoothly.

The ZR-1 made faster time than has been calculated and that caused Admiral William A. Moffett, chief of the Bureau of Aeronautics of the Navy Department, to send a wireless dispatch to Captain Frank McHardy, commander of the ship, instructing him to reduce the speed so that it would not arrive in St. Louis too soon.

The stay of the dirigible at the airport was brief, according to post arrangements, lasting only an hour, in which time food and bologna was taken aboard for the return trip to Lakeland. Food also will be taken on for the crew.

All preparations had been made for the landing of the ship. A detachment of 100 marines men had been sent from Coast Guard, to serve as a light-ship station near the end of the pier.

A reception committee of civil of police, army and navy officers, and distinguished visitors of foreign countries here for the races met the ship when it landed.

The mammoth of the ship departed on its return trip to Lakeland, N. J., at 9:30 a. m. It will fly over Chicago, South Bend, Toledo, Detroit and Cleveland.
The dirigible will return to St. Louis Saturday for the Patton air classic.

Crying of Baby Saves Three Families; Five Children Carried to Safety

Eleven persons, five of them children, escaped to the street in their night clothing during a fire today on the top floor of the three-story dwelling, No. 337 Salem street, Medford, when Mrs. John Parsons, who discovered flames bursting into her bedroom.

During the baby and two-year-old John Parsons, who awakened her husband, who took the third child Catherine, seven years, and the family dog downstairs.

Mrs. Parsons, who lives on the first floor of the house with her sister, Mrs. Helen Clark, and her husband, Gordon, got out the second child, a boy named Harry, and the third child, a girl named Margaret, and the family dog.

The top floor of the building was turned over by the second child, a girl named Margaret, who was rescued by a man named Harry, who was rescued by a man named Harry, who was rescued by a man named Harry.

2 SERGEANTS' SONS FREED IN DRUNK ARRESTS

Residents of Dorchester today attempted to penetrate the mystery surrounding the arrest of two youths, one of police sergeants, after shots were fired, and their later release.

The police of Dorchester 17 who made the arrests were particularly uncommunicative, merely stating the two young men were taken into custody for drunkenness.

The arrests appeared on the police blotter as Leo M. Flaherty, 21, of Dorchester, and Edward A. Sheehan, 20, of 67 Waverley avenue, Dorchester, John A. McGivney, 20, 124 Dorchester, were arrested on the same charge at the same time.

It was learned that Flaherty is the son of Sergeant Patrick P. Flaherty of Division 2 and Sheehan is the son of Sergeant Jeremiah H. Sheehan of Division 3.

Residents in the vicinity of Dorchester and South Hill avenue discovered they had two shots fired and looking out their windows saw a police sergeant after a woman and a child. The car signalled around the road a time or two and then stopped.

Ford Plans To Sell Gasoline At 16c a Gallon

New York, Oct. 2.—Wall Street says Henry Ford is about to deal a master stroke in the automobile business and oil industry.
It is declared he is negotiating for oil properties, planning to produce crude oil in huge quantities, refine it into gasoline and sell to Ford car drivers only at 16 cents a gallon.

HOTEL MAN WEDS AFTER ELOPEMENT

George J. Christie, proprietor of the Monmouth Hotel in Merrimack and former prohibition agent, was released from arrest for abducting Miss Lena Olla, a telephone operator of Merrimack, when he was married to her and effected a reconciliation with her brother who had pursued them to Savannah, Ga.

During the baby and two-year-old John Parsons, who awakened her husband, who took the third child Catherine, seven years, and the family dog downstairs.

Mrs. Parsons, who lives on the first floor of the house with her sister, Mrs. Helen Clark, and her husband, Gordon, got out the second child, a boy named Harry, and the third child, a girl named Margaret, and the family dog.

9-HOLE GOLF COURSE ON TUFTS CAMPUS

Clarence P. Houston, graduate manager of athletic affairs at Tufts College, announced today that construction would be begun immediately of a nine-hole course on a fragment of land near Tufts Oval, which forms a part of the campus. It is hoped to have it in shape for use before winter. The land has been owned by the Tufts family since the death of Wayne Stiles. The total value of the land is \$175,000 and is owned by the Tufts family since the death of Wayne Stiles.

LEO FRANK CLEARED BY NEGRO'S STORY

Mary Phagan, who was convicted of murder and sentenced to hang in 1913.

Motions for a new trial were carried to the State Supreme Court by Frank's attorneys and delayed carrying out the sentence for more than a year's time.

Frank's sentence was then commuted to life imprisonment by Governor John H. Shivers. The prisoner was taken to the State convict farm at Milledgeville for greater safety early in 1915.

He was taken from the authorities by a mob and carried in an automobile to Marietta, where he was hanged in sight of the Phagan girl's grave.

CHORUS GIRLS LIKE AMERICAN'S RAZOR OFFER

BOBBED HAIR BEAUTIES FIND THEM USEFUL

Continued from First Page.

on the other girls to help out with the old-fashioned razor that leaves regular battle scars when your hand slips."

THE ANNOUNCEMENT.

For the benefit of any reader who may have missed the announcement in yesterday's Boston American we repeat:

The Boston American has secured genuine Auto-Strop Razors complete with strops and leather case that folds up so small it can be placed in a lady's handbag or carried in a man's vest pocket. Starting tomorrow, Wednesday, the Boston American will print coupons each day. All a reader has to do is clip two coupons on consecutive days, mail the coupons, or bring them in, to the Boston American along with 36 cents and this wonderful razor set complete in his or hers, as the case may be.

Always on the alert to provide something for the benefit of its readers the Boston American seized the opportunity and secured these sets complete and now gives them to the readers at a price that is positively astounding.

There will be distributing stations throughout New England where readers may turn in their coupons and the 36 cents and secure the razor sets. Those who prefer sending in by mail are asked to include an additional four cents to cover postage charges.

Now to get back to the girls of "Bally, Irene and Mary."

"Just the thing to use in shaving the back of my neck," said Miss Vernon. You know this bobbed hair business makes it very necessary that our necks be shaved or else we would look like farmers from the

back woods. With this razor we can either shave our necks ourselves or have another girl do it—and without fear of having our necks sliced off. It is wonderful. Your readers must think an awful lot of you."

Pretty Louise Vink says she simply cannot wear this strop stockings without feeling ashamed. "If I can get one of these razors I won't need to worry any more," she declared.

"Say, Ed, don't you think every woman in the country ought to get one of these razors?" said Virginia Natty as she punched her way through the crowd.

"Well, I should say as much," answered, Ed Fuller as she felt the keen edge of the faster blade with her delicate fingers.

GET A COUPLE.

But this razor will be used by other than girls of the chorus. It is something every woman should have. Housewives will not have any kids over their pot razor being dated when their wife gets one of these. The Christmas shopping days have already started. Why not provide the opportunity and get a couple of these razors to send to your friends? They are attractive. They are useful. They are compact. They are necessary. What better present could you give? Remember! There are no conditions, no red tape and no donations attached to this wonderful offer. All you have to do is clip the two coupons on consecutive days. Either mail or bring in the 36 cents and the coupons and the razor is yours. And it is a real razor—not a toy. It can be used by any novice and will not slice the flesh off.

Watch tomorrow's paper for further announcement and the first coupon.

SALLY, IRENE AND MARY GIRLS TRY RAZOR

AUTO STROP JUST THE THING
Lettie Hume and Hazel Vernon of the Sally, Irene and Mary Company trying out one of the Auto Strop Razors offered to its readers by the Boston American.

POLICE REPORTS MISSING AT COP'S TRIAL

Reports made out by two policemen who investigated a disturbance at Forequest Inn in Sixth street, South Boston on the night of July 21, are mysteriously missing.

The reports were sought by Police Commissioner Herbert A. Wilson during the trial today of former Patrolman George C. Roberts who was accused of falling to quell a disturbance at the inn that night and was discharged from the police force.

They were made out by Sergeant William Tilton and Patrolman John Noonan of the City Point station. They were called to the inn by Lieut.

paid Berg, proprietor. Berg said Patrolman Roberts was told that two men had assaulted two women in the inn, and Roberts instead of going into the place, walked away unprovokedly.

Captain John J. Rooney told the commissioner that Robert was "hot-headed and erratic."

"Did you know that when Roberts made an arrest the dock lieutenant had to accompany him prisoner to a cell to prevent Roberts from mistreating him?" the commissioner asked.

"I've heard so, but I do not know it to be true," Rooney replied. Roberts' case was taken under no viemont.

"WALL STREET WOLF" FOUND IN MEXICO

Washington, Oct. 2.—David L. Larrabee, known as the "Wolf of Wall Street," has been located by Department of Justice agents in Mexico. He disappeared a year or so ago after being sentenced in New York in connection with a stock market transaction.

A. F. L. REELS PELLETIER TO PROPAGANDA "RESIGN" TO U. S. COURT

Portland, Ore., Oct. 2 (I.N.S.)—American public school education faces a special test as a result of the "subtle influence" of reactionary forces, a special committee on education of the American Federation of Labor charged today in a report to the national convention here.

"Unholy interests are seeking to use the public schools for propaganda purposes, are attempting an indefensible encroachment of the utterances of teachers and are undermining the dignity and independence of the teaching profession," the report stated.

"In an effort to find the causes of this drive on education we have investigated the more important organizations attempting to influence public education, for whatever purpose. Much of the pressure has been from local bodies such as the Chambers of Commerce, Rotary Clubs and the like."

"They derive their impetus mainly from two sources: First, the wave of hysteria against 'radicalism' which passed over the country during and immediately following the war, and which was spread indiscriminately in the press, the pulpit and other organs of expression; and second, the calculated propaganda of national organizations."

In the latter class the committee named, among others, the American Federation of Teachers, the International Association of Teachers, the National Education Association and the National Association of Manufacturers.

The committee proposed a "safeguard" against future propaganda by warning every local labor organization to watch the public schools in its own territory.

GORDOVA WILL CUTS OFF WIFE

Continued from First Page.

Cordova family for years, had taken De Cordova into her home as a boarder. For many months De Cordova was unable to pay for his room and board, but Mrs. Dean, who has worked to send her son, Whitford, through college, not only made no complaint, but nursed De Cordova through many illnesses.

Shortly before his death, De Cordova remarked to a friend:

"I have owed Mrs. Dean more than \$450 when I know that every dollar meant much to her. She has taken the place of my dead mother, and some day she will be paid for her kindness."

For the \$450 Mrs. Dean will receive about \$17,000.

Another person who helped out De Cordova substantially was George L. Ware, chairman of the board of trustees of Mutual Funds of Massachusetts. De Cordova lived in Ware's home for many months and was helped out financially when Ware had money and De Cordova didn't.

When De Cordova won his case against the money lenders he left for Europe before he could obtain much actual cash from the estate, but he gave Ware \$25,000 and left one-fourth of his estate in trust to Ware's only son.

THE YOUNGER WARE IS TO BE EDUCATED from the income of the trust fund and to be given the trust fund and its accumulations at the age of thirty years. Should he fail to reach the age of thirty, the trust fund goes to Mrs. Dean.

Harry E. Glover has been a close personal friend of De Cordova for years. At R. Whitford Dean, son of Mrs. Juanita Dean, helped his mother care for De Cordova when the latter was ill.

Miss Eunice E. Miller, a social worker who lives in the Westchester street, was one of the few friends of De Cordova who remained loyal to him during his reverses. For this friendship she receives \$10,000.

William Sloops, former chauffeur for De Cordova, former chauffeur for a man well known in years. Last year he drew \$25 from his slender bank account and loaned it to De Cordova. De Cordova paid the principal back some time ago. The \$10,000 left in the will is interest returned for kindness.

MAYOR TO ISSUE NAVY DAY CALL

Rear Admiral L. R. Dettiger, commander of the Navy Yard, has written to Mayor Curley asking him to issue a proclamation on Navy Day, to be held all over the United States on Wednesday, October 17.

The mayor has expressed his willingness to cooperate and within a few days will issue a call for all citizens to observe the day.

Washington, Oct. 2.—Former District Attorney Joseph C. Pelletier of Boston disbarred from practice in both the state and Federal district courts, has also offered to "resign" from practice in the United States Supreme Court.

Announcement that such an offer has been received from Pelletier, was made today by Attorney General Daugherty's department.

The matter will probably be put up to the United States Supreme Court, which has just begun its regular session.

Following the decision against Pelletier in the local and federal courts, United States District Attorney Robert O. Harris called his standing to the attention of Daugherty in connection with custom action, was then withheld because Pelletier was engaged in the election contest which he lost to District Attorney Thomas C. O'Brien.

Because of Pelletier's expressed willingness to "resign" the United States district attorneys are willing to let him out without further humiliation, but as yet they have been unable to find a precedent for such action.

MRS. TOWER PICKED AS WHITNEY SPONSOR

Mrs. Rodrick Tower of No. 247 Park avenue, New York, oldest daughter of H. P. Whitney, will be sponsor for the destroyer tender Whitney, which will be launched at the C. & A. shipyard, Navy Yard on October 17.

The Whitney has been named in honor of her father, former Secretary of the Navy William C. Whitney. The ship's keel was laid about a year ago.

Plans for the ship's keel were laid about a year ago.

The Shepard Stores

A recent questionnaire sent to fifty representative American colleges definitely establishes the fact that milk is good for athletes.

One well-known coach says that his runners who drink milk have "better wind" than those who do not, though his diet regulations restrict them from drinking milk for several hours before a hard contest.

Milk is certainly the diet for college athletes.

High School Boys, Remember This:

When selecting the foods best suited to put you in fine physical condition, four glasses of milk a day is good for you while training for football.

The New Watches

During the week of October 1st we shall have an exhibition of the new models of the Waltham New Thin Colonial Watches for men. The cases are beautiful in design and workmanship, worthy in every way of the accurate watch works that they shelter. The metals are green gold and white gold, while many of the faces are platinum.

You are cordially invited to see these watches. You will be delighted with the rich simplicity which they display—all similar in points of good taste, yet each of individual and distinctive charm.

This exhibition gives you an excellent opportunity to select a watch for a Christmas gift. You will have the joy of giving something which will afford constant pleasure and accurate service for many years to come.

While these watches are the latest arrivals in our watch department, we have also been receiving daily our Christmas stock of other makes, which includes some unusually exquisite watches for women.

Proving That There Are More Than One Hundred Cents in a Wisely Spent Dollar

THIS is the final sensation of our greatest sales effort. Every one of these items is extraordinary—impossible as a daily practice. Quantities are large, but may not last all day. With one or two exceptions all items are offered at 1.00 for Wednesday only. When quantities are exhausted we cannot hope to get more to sell at 1.00. We cannot, therefore, fill mail or telephone orders. Look for these items in regular sections, not on the Throughfare.

Absolutely No Dollar Day Items Shown or Sold Before Wednesday A. M.

Onyx Silk Hose
1.00

PURE thread black silk—no loading. Lisle soles and toes. 2300 pairs, and every pair perfect. What an opportunity to economize.

Cocoa Mats
1.00

HEAVY cocoa mats. Sizes 18x30. Closely woven. A value that reminds us that a good cocoa mat is a tremendous saving on other floor coverings.

Pillow Tubing
3 Yards for 1.00

THE celebrated Cannon Pillow Tubing; this is 42 inches wide. Interesting news for the woman who makes her own cases!

Boudoir Caps
1.00

DAIN'TY creations; in six styles, including bonnet shapes. Satin, lace and ribbon are used in some. Net, satin ribbon and lace in others. Really thrilling values all.

Soaps
24 Cakes for 1.00

An assortment of good soaps that will delight the housewife who realizes the value of economy in this item of supplies.

Millinery
1.00

ALARGE group, mostly one of a kind, has been especially priced for Dollar Day—trimmed felt hats, untrimmed felts and embroidered hats.

Cottage Dresses
1.00

STANDARD percale, in floral designs, light colors and navy and silver gray. Crêtonne medallion trimming, fullness at the hip. Comfortable, attractive and an exceptional value.

No Mail Orders

Blouses and Sweaters
1.00

THE only clearance items at a dollar, but real values and a worthwhile exception. Lingerie blouses, some solid, but will wash—dimities, voiles, colored striped madras, other cotton materials. Not all sizes in each style. Coat sweaters and Slip-Ons of wool, fibre, or wool and fibre mixed. An extensive assortment, including many small sizes.

Irregular Silk Hose
1.00

PURE dye thread silk, full fashioned in black, heaver, log cabin, gray and cordovan. A wonderful brand, but not to be mentioned here. A quality that wouldn't be possible at the price if they were perfect.

Cotton Umbrellas
(Irregular)
1.00

MEN'S styles with plain wood handles, and women's umbrellas with plain wood handles with cord loops, all good but subject to misuses.

No Dollar Day Items Will Be Displayed or Sold Before WEDNESDAY

Shadow-Stripe Knickers
1.00

OF lustrous cotton sateen, well made and reinforced. 27 and 29 inches long. We can get no more to offer at 1.00 when these 1200 are gone. Navy, Black, Flesh and White.

Pure Linen Crash
5 Yards for 1.00

ONE never can have too many dish towels and kitchen towels, but such an event as this warrants getting an unusual supply.

Panel Mirrors
1.00

JUST the thing for a narrow space—between windows, perhaps. And so inexpensively—size 4x14. Ornamented tops.

Stamped Luncheon Sets
1.00

ALMALTESE cross pattern on white cotton stamped for embroidery in cross stitch. Four napkins to match. Hemstitched for crochet edge.

Wash Laces
2 to 3 Inches Wide
10 Yards for 1.00

A VARIETY of designs in Platt Val. and Normandie Vals. in widths very unusual at this price.

Hand Bags
1.00

OF real leather, in several shapes and colors. An assortment that will be a surprise even among the unusual values of Dollar Day.

Dark Petticoats
1.00
Of Cotton Sateen

MADE in Navy, Brown, Black or Taupe, with deep flounce of printed material, pleated and stitched in Russian effects. A value worthy of note.

2-Clasp Gloves
1.00

IMPORTED glove gloves, with Paris point backs. Colors are tan, brown, white, black and black with white stitching.

Stationery
5 Boxes for 1.00

HIGH-GRADE stationery with varying styles and sizes of envelopes. An opportunity to get a supply that encourages letter writing.

Corduroy Knickers
1.00

GOOD heavy Corduroy, in the desirable seal brown shade, with three pockets. A value that every mother of growing boys will appreciate.

Bath Towels
3 for 1.00

HEAVY double-thread Turkish towels, large size, 22x44. Full bleached. A thrilling opportunity to save. Red, blue and plain white borders.

Baroness Corsets
1.00

OF coutil and surgical webbing—a type very unusual at this price. The side panels and inserts at top of webbing add to its comfort and flexibility.

Mercerized Table Cloths
1.00 Each

HEMSTITCHED or scalloped cloths of good heavy quality mercerized cotton. All white or white with colored borders—sizes 45x45, 58x58, 58x64.

Plaid Blankets
1.00 Each

GOOD quality cotton blankets in an attractive assortment of colorings. We could get but for this astonishing value—size 64x76.

Men's Shirts
1.00

WOVEN Madras, Printed Madras, Cotton Pongee, White Madras, Ploue, Fine Persa's and Philippine Repps to choose from, and, at this astonishingly low price, it's wise to get quite a supply.

Bill Folds
1.00

MEN'S real leather bill folds, in different styles. Black only.

Men's Hose
7 Pairs 1.00

THINK of it! Seven pairs for 1.00, and a choice of black and several colors.

Fancy Four-in-Hands
3 for 1.00

FOUR THOUSAND ties, all in attractive patterns, but they will go quickly when men hear of this opportunity for saving.

Cotton Flannelette
5 Yards for 1.00

A VERY heavy quality, in many pretty shades and fancy checks and stripes, suggesting warm sleeping garments. Such a timely offering, and 36 inches wide!

Imitation Filet Scarfs
1.00 Each

FINE quality imitation filet scarfs, with linen centers and lace in basket design.

Ruffled Curtains
1.00

VOILE—Solid with double flounce at bottom and narrow ruffle at sides; others with narrow ruffle at side and bottom. Ruffled tie backs to match.

Felt Base Floor Coverings
2½ Sq. Yds. for 1.00

THESE are in a variety of patterns and colorings; a most inexpensive floor covering for kitchens, pantry and service halls.

Silks
1.00 Yard

SILKS one would never expect at this price—about 1600 yards, black and colored Westsallines, Crepe de Chine in various shades. Also printed silks.

Boys' Blouses
2 for 1.00

NEAT stripe effects in "well-covered" designs. Made of fine quality percale, with double-yoke back; full sizes, 6 to 15 years.

Rag Rugs
1.00 Each
2 Sizes

1600 of them. These are 25x50 inches, 27x34 inches. Assorted colors. Extra Heavy Quality.

WOMAN FATALITY HURT AS AUTO HITS TRUCK

Three persons were injured, one probably fatally, today, when an auto in which they were riding crashed into a truck at North Beacon and Arthur streets, Brighton.

The injured are Mrs. Emily Jewell, 41 years old, of South Lincoln; her husband, T. E. Shewen, and her mother, Mrs. William Blodgett, 62 years old. Mrs. Shewen is in the danger list at St. Elizabeth's hospital. Shewen and Mrs. Blodgett were slightly cut.

According to the police, a truck driven by D. W. Leon, of Chelsea, was coming along North Beacon street just ahead of the Shewen car. When it reached Arthur street the truck turned to the left and the other car crashed into it, turning completely over.

Get Thin With Melto!

Oh, the weariness of strenuous dieting! No wonder you're tired! But all that is changed now! You can be slender, graceful and charming without fasting! For science has discovered Melto—the easy, comfortable way to reduce. You simply apply Melto to the part you want to reduce—it melts away! Your skin becomes firm and healthy, you find it easier to clear your complexion! You can enjoy the warm, delicious qualities of Melto, just as thousands of other gratified women have proved it. It is the only dieting agent that does not harm the system. It is the only dieting agent that does not harm the system. It is the only dieting agent that does not harm the system.

Free—Write for interesting booklet about the secrets of reducing.

HOW BULLET IMPERILLED SCHOOL TEACHER AND PUPILS

PRINCIPALS AND PHOTO DIAGRAM OF WORCESTER SCHOOLHOUSE SHOOTING

Photo diagram shows how sixteen-year-old Edmund Caskey, a pupil in the room, passed within an inch of the teacher and was imbedded in the wall behind her. Inset, left to right, Ruth Javery, Miss Lee, Edmund Caskey and William Hopki, his seventeen-year-old brother who stood by with another revolver during the affair. Lower right inset, the .32-caliber revolver used by the youth.

Principal William G. Thompson, one of constant for Nicola Sacco and Bartolomeo Vanzetti, in arguing today before Judge Thayer at District Court for a new trial for the accused, carried three bullets into the jury room in his pocket.

The new evidence shows, the defense claims, that Ripley did this secretly and that the bullets were used to compare with the bullets taken from the revolver of Vanzetti. "You cannot hustle men into the electric chair merely for a personal victory," Attorney Thompson told Justice Thayer.

Judge Thayer asked for the bullets from the Vanzetti revolver and the three bullets which are alleged to have been taken into the jury room by Ripley. Thompson declared the bullets had been marked by the finger nails of some of the jurors. He said Ripley refused to tell Attorney McAnaney of defense counsel who marked them.

Attorney Thompson declared these bullets were discussed by the jurors and that by so doing the constitutional rights of the defendants were violated as the bullets amounted to "evidence."

BOY CONFESSES SHOOTING AT TEACHER

Worcester, Oct. 2.—The youth who shot through a window of the Cambridge street schoolhouse at Miss Anna Lee, and came within a fraction of an inch of hitting Ruth Javery, sixteen-year-old pupil, was caught by his pal by Patrolman Oscar W. Johnson after a short chase in Canterbury street.

The boys are Edmund Caskey, sixteen years old, of No. 44 South bridge street, who the police say admits the shooting, and William Hopki, seventeen, of No. 478 South bridge street.

WRANGLE OVER BULLETS IN SACCO CASE

Attorney William G. Thompson, one of constant for Nicola Sacco and Bartolomeo Vanzetti, in arguing today before Judge Thayer at District Court for a new trial for the accused, carried three bullets into the jury room in his pocket.

The new evidence shows, the defense claims, that Ripley did this secretly and that the bullets were used to compare with the bullets taken from the revolver of Vanzetti. "You cannot hustle men into the electric chair merely for a personal victory," Attorney Thompson told Justice Thayer.

U. S. CHAMBERS MEET IN HUB

Boston welcomed a large number of business leaders of national importance today in connection with the quarterly meeting of directors of the United States Chamber of Commerce. Of the fifty officers and directors forty-seven are here for the two-day session.

Today's conference were private and consisted in the main of routine organizational matters.

Some prominent visitors are Julius H. Barnes, president of the Chamber; Willis H. Root, vice-president of Guaranty Trust Company, New York; Louis E. Parsons, chairman of the board of the Irving Bank & Columbia Trust Company, New York; William Butterworth, president of Dreyfus & Co., A. C. Bedford, chairman of Standard Oil of New Jersey; Thomas E. Wilson, president of Wilson & Co., Chicago; Max W. Babst, vice-president of Allied

Women Reap Profit "Sitting in Line" In Germany

Berlin, Oct. 2.—"Sitting in Line" has become a profitable calling in Germany. The professional holders of places in food queues take chairs with them and sit comfortably, knitting, reading or chatting with acquaintances.

Former scrubwomen have taken to the new calling. They can earn more money, with less physical effort, in the queues.

Every apartment house has its "sitters" who may be retained by the hour, and labor bureau can supply them immediately upon request.

Chambers Manufacturing Company? A. J. Housman, president of Black Trucks, and Paul Shoup, vice-president of Southern Pacific Railway.

STEAMSHIP LOAD OF NOBLES LANDS

New York, Oct. 2. (U.N.B.)—Nobly descended like an army on New York today. Twenty-three princes, eight baronesses, six barons and two counts arrived aboard one liner. They were immigrants from the Caucasus, refugees picked up at Black Sea ports, to which they had fled after the defeat of General Wrangel's army.

The nobles, together with 125 Turkish and Greek "picture brides," were aboard the Greek liner Constantia. A number of sailors married during the American fleet's stay in Turkish waters, also arrived.

The nobles begged that they be dispersed only as prospective citizens.

NOVEL RUSSIAN PERFORMANCE DELIGHTS

By NICHOLAS YOUNG.

AFTER the Russian drama as exhibited by the Moscow Art Theatre, with its somber, tragic tone, you found it well fortified with experience against anything that might happen at the Shubert last evening when you met Nikita Beloff and his Chauve-Souris for the first time.

This time, however, you caught the Russians without their usual assortment of tragedy and you spent a gay evening with Beloff and his people in which you had set down on the books as Russian vaudeville, for the production ran from one unrelated feature to another with speed and precision the theatre has never known.

WORDS IN RUSSIAN.

If anyone had told you that you could extract two and a half hours of colorful entertainment listening to actors and singers whose words you could not understand you would probably have answered in the well-known language of our highways and said it could not happen—not by a joyful, or something equally expressive.

And yet, Nikita Beloff took you gently by the hand last evening and led you through so many increasing bits of theatrical entertainment that before the final curtain you were loudly demanding more.

And you couldn't understand a word that was spoken on the stage, all of which, in a manner of speaking, proves that the language of art needs no interpreters. The Chauve-Souris that Moscow Comstock and Gost are sending across the country managed to lead New York by the ears for a

DANCE NUMBER IN "CHAUVE-SOURIS"

THE SEE-SAW.
Mrs. Fehner left, and Mrs. Karanawa, two of the Russian actresses at the Shubert Theatre.

full season and your first glance at the entertainment last night yielded full justification for the entire proceedings.

AMUSING DIRECTOR.
The real glory of Chauve-Souris, which, after a fashion of liberal translation, means Rat, rests with its amiable and amusing director, Nikita Beloff. Taking you at your face value, for you must have looked as if Russian, as a language, would stagger your dental arch, Beloff stepped merrily into the spotlight before every act and explained in his own kind of English just what to expect.

As a polka clown, with a pink

up a perfectly new and delightful idea of impersonal address from hell out and clear about, he put the stage, to keep you in a friendly mood for his plays, and it affords a delightful characterization of the picture. The quality of the play has never been surpassed. In the adaptation, executed by Lutherford, an exceedingly skillful job was done.

"Anastasia Miss Davis in the en-

actment of the picture is a group of nicely cast players and all of them are players of real ability. Among the especially distinguished performances are those contributed by J. M. Kerrigan, Harrison Ford, Courtney Stone, Mahlon Hamilton, Sam Hardy, Montague Love and Billy Hatch. There is also to be mentioned Harry Watson and Louis Wolheim, who are responsible for some excruciating comedy of the burlesque type that are as funny as anything ever put upon the screen. Among the memorial fight in pictures the hard-boiled prize fight between Watson and Wolheim will have a lasting place.

"The role undertaken by Miss Davis called for a wide range of emotional capabilities and a number of delicate nuances. It called for tragedy, romance and comedy and in every demand she equaled the task and on the whole accomplished a performance that proves she is in reality an artist of rare ability."

"Little Old New York is another gem of the promise seen in Mr. Hearn's interest in motion pictures. It is a picture the industry may be proud of and it will not have to boast about it, this picture will take care of its own reputation."

WOODEN SOLDIERS A HIT.
With a bill that includes George Moore, helped along by "The Astor and Victoria Miller; Pleurotte Jeffries; Will Grey and Blanche Daynes; Julius Tannen and a Russian novelty, Keith's Theatre this week has Frank its reasonable aside and provides one of the best vaudeville entertainments seen here in a long time.

Mr. Moore is a versatile comedian who knows just what the audience likes and furnishes it. Miss Astor and Miss Miller are noted singers, and their dancing is a dream. Julius Tannen is in a class by himself. Will Grey and Miss Daynes' act is known all over America. It was a big hit. Miss Jeffries, a coloratura soprano, has a splendid voice and uses it to the best advantage. Keith's Theatre Grotto is a mixture of comedy, pantomime, singing and dancing by a troupe of Russian artists.

PRASE GROWS FOR MARION DAVES

That Marion Davis has achieved the triumph of her screen career is what they characterize as one of the greatest screen classics of all time is the unanimous opinion of the reviewers of the motion picture trade papers in their criticisms of "Little Old New York," now playing in the tenth week of its sensational engagement at the new Metropolitan Theatre, New York, and showing simultaneously to record-breaking audiences at the California Theatre, Los Angeles, and the Empire Theatre, London. In reviewing the picture, film the trade paper critics heartily endorse the astuteness of the leading critics of the New York and London dailies and unequivocally stamp the production as a masterpiece and the work of Miss Davis a pantomime achievement.

"Little Old New York" is an exquisite creation that gives Marion Davis a secure grip on stardom, is the tribute paid by Martin J. Quinn, who wrote in the Exhibitors' Herald as follows:

"William Randolph Hearst's 'Little Old New York' is an exquisite creation—a thing of beauty, charm and considerable dramatic appeal. 'Little Old New York' is a screen story play of the same name. It is an appealing little narrative. Fixed in the picturesque situations of the New York City of a hundred years ago and it affords a delightful characterization of the picture. The quality of the play has never been surpassed. In the adaptation, executed by Lutherford, an exceedingly skillful job was done."

"Anastasia Miss Davis in the en-

actment of the picture is a group of nicely cast players and all of them are players of real ability. Among the especially distinguished performances are those contributed by J. M. Kerrigan, Harrison Ford, Courtney Stone, Mahlon Hamilton, Sam Hardy, Montague Love and Billy Hatch. There is also to be mentioned Harry Watson and Louis Wolheim, who are responsible for some excruciating comedy of the burlesque type that are as funny as anything ever put upon the screen. Keith's Theatre Grotto is a mixture of comedy, pantomime, singing and dancing by a troupe of Russian artists.

"FASHION GIRL" AT THE SOMERVILLE
No one doubts the popularity that Tommie Martelle holds with the patrons of the Somerville Theatre. This talented female impersonator made his appearance last evening in a new comedy with music, "The Fashion Girl." Martelle, however, was not alone in the cordial warmth that was extended by the large audience. Peggy Shaner, a pronounced favorite of last year, who has been graciously engaged to interpret the leading feminine role, came in for a lion's share of the evening's applause.

"The Fashion Girl" is a play in three acts, having an appealing story, breezy dialogue and affords an opportunity for both Mr. Martelle and Miss Shaner to sing several exciting numbers.

Week's Features

BOSTON—Brilliant Dean in "Drift- ing," supported by Wallace Healy and Matt Moore. The J. Francis Hany song and dance review heads the vaudeville section.

WALDRON'S CASINO—Burlesque "All Aboard," with "Sherry McAllister and Tom Senna in the comedy, review. Also vaudeville and pictures.

CAPITOL—"Broadway Gold," featuring Gloria Swanson in "Her Reputation," with May McAvoy.

OLYMPIA—"The Midnight Alarm" and seven acts of vaudeville.

STANDARD—"The 8th Wife," featuring Gloria Swanson in "The Empty Cradle," with Mary Allen and Harry Moray.

COMING—"The 8th Wife," featuring Gloria Swanson in "The Empty Cradle," with Mary Allen and Harry Moray.

MODERN AND BEACON—"The 8th Wife," featuring Gloria Swanson in "The Empty Cradle," with Mary Allen and Harry Moray.

HOWARD—"The 8th Wife," featuring Gloria Swanson in "The Empty Cradle," with Mary Allen and Harry Moray.

BOWDWIN—"The 8th Wife," featuring Gloria Swanson in "The Empty Cradle," with Mary Allen and Harry Moray.

GRIFITH FILM AT LOEW'S STATE
The picture is a story of Southern romance and all the exterior scenes were photographed amid the splendor of the unspoiled open spaces of the sunny southland and encompass the rare and delicate architecture of the old stately mansions of that section in days gone by. It is the old story of truth and right conquering over wrong and injustice; of false pride crumbling under the assault of true love.

SUSPEND POLICEMAN WHO PLAYED POKER
Haverhill, Oct. 2.—Policeman Thomas Rudolph was punished with a ninety-day suspension for taking part in a poker game while on duty. Foreman Rudolph was discovered by a fellow officer while playing with other men in a saloon. He was arrested by Sergeant Frank O. Blanchard.

LIGHT COMEDY RELEASES AT ST. JAMES

"Six Cylinder Love," as presented by the Boston Stock Company at the St. James, amused a large audience with its light comedy. The book, by William Anthony McGuire, has nothing to fatigue the most wearied mind and should be in close line with the comedy and what goes with it.

TREMONT—"Loyalties." A great play, brilliantly acted by an all-English company.

PIONEER DAYS SHOWING NEW FILM

"Pioneer Trails," a Vitaphone production showing the conquest of the West by pioneers in the last rush succeeding the 40 days, is the attraction at the Park Theatre. It is a thrilling drama produced with a big cast headed by Alice Calahan and Cullen Landis. Human interest runs strong in the development of the story because of the atmosphere set by the period. The story opens with a prodigious wherein a young couple with their lot out for the unexplored Western country in a prairie canvas. The train is attacked and all except the young son are killed by Indians. The boy is found by another group of pioneers and is adopted by one of the families, who rear him as a son.

Some years later, the boy, grown to manhood, picks his life to stop a runaway stage coach. Through this deed he encounters romance which in the development furnishes a happy aspect of the thrilling drama. He even gets a chance to win the girl he loves.

Miss Calahan is particularly charming in her role and lends a gracious touch that easily wins her spectators. Her even good looks, as the young hero, gives a characterization always pleasing and true. Particular mention should be made of the picturesque scenes in mountains and plains wherein great numbers of extra people that include a large band of Indians are shown.

MIXED PROGRAM AT LOEW'S ORPHEUM

An unusually attractive bill of vaudeville and photographs was presented at Loew's Orpheum Theatre yesterday. The vaudeville was headed by clever musical acts entitled "Everybody Stop," which entitles the services of Cahn & Dale, Cherie Sisters and Joan D'Arcy. The featured photograph presented Miss Murray as a picture of "The French Doll." A comedy of two reels with many funny situations and a Pathe News completed the program.

ARMY AIR CHIEF SEES PERIL TO U. S. IN LACK OF PLANES

St. Louis, Oct. 2. (A.P.)—The United States is far behind in aviation progress, Major General Mason M. Patrick, chief of the army air service, declared in an address at a banquet held here by the National Aero Congress in conjunction with the international air races.

The general urged support from Congress for increased appropriations which would enable the air

ENTRIES POUR IN FOR COMIC MASQUERADE

Nothing succeeds like success. Proof that this old adage will soon come true is indicated by the fact that nineteen entries for the Boston American Comic Supplement Masquerade next Thursday evening in Crescent Gardens Ballroom, Revere Beach, arrived in one mail.

Free tickets of admission to the masquerade, valued at \$1.50, will be sent to every person writing to the Boston American, provided the writer agrees to attend the party dressed like one of the characters in the comic supplement of this newspaper.

EQUAL CHANCE FOR ALL

All who take part in the grand march of the carnival "dolled up" to represent one of the funny folks of the cartoons will have an equal chance to win one of the twelve gold prizes. A total of \$200 is to be awarded.

Beautiful twenty-year-old Miss Grace Moulton of Cambridge, who is declared by Boston artists to be "the girl with the perfect form," her measurements being close to that of Venus, will attend the carnival dressed as Jiggs's daughter.

Other recent entrants include Albert H. Peck, No. 46 Cornhill, Boston (Quint Delany); Ross Hood, No. 11 Beltington street, Chelsea (Jiggs); Leonard Vanderput, No. 31 Ashley street, East Boston (Dutchman); Harry H. McVay, Oak Island, Revere (Jiggs); Ethel Lewis, No. 47 Cambridge street, Cambridge (Jiggs).

NEW ENTRANTS

Additional entries are Thomas McCarthy, No. 75 Middlesex street, Lowell (Jiggs); Maren C. Moulton, No. 3 Union street, Salem (Jiggs); Gladys Merchants, No. 4 Irving street, Woburn (Krazy Kat); Meyer Stahel, No. 6 N. Main avenue, Haverhill; Corinne Burns, No. 142 Prospect street, Cambridge (Maggie).

Others entered are Sam Fletcher, No. 31 Fayston street, Roxbury (Venus); Charles Ross, No. 55 Broad street, Boston (Hobbes); Irving Stahel, No. 11 Blue Hill Parkway, Salem (Jiggs); Madeline and John August, No. 20 Kirkland street, Boston (captain and his wife); Mary Kelley and Edith Ford, No. 22 Dunster road, Jamaica Plain (The Katzenjammer Kids); Daniel Hurley, Jr., No. 33 West Third street, South Boston (Hercules).

Joins in Carnival

MISS GRACE MOULTON
Cambridge "Venus" who is to attend comic masquerade as "Jiggs" daughter.

RENT STRIKE IS DECLARED IN SOUTH END

In protest against a proposed increase of rent of \$10 to \$15 a month, twenty tenants of the old Hotel Chatham, an apartment house at No. 14 West Concord street, South End, have declared a rent strike, defying the orders of their landlord to pay the increase or vacate.

When the owner of the building, Morris Kraft of Chelsea and his attorney went to the building to collect the rents for October, the tenants

Mrs. Jeanie O'Brien, Mrs. Augustus informed them that they would not pay more than the usual rate, which is \$25 and \$40 for the three-room suites.

The tenants have formed a protest committee, which filed a petition with Chairman Herbert Ellis of the Housing Commission at City Hall. The latter, they said, advised them to offer the usual rates until he has made a decision in the matter.

Included in the committee are Patrolman James Redington, William McHane, Mrs. O'Brien, Mrs. Jetter Augustus, and Mrs. Mary Hunter. Others who were ordered out when they refused to pay the increase are Mrs. Julia Powers, a sixty-year-old widow; William Reynolds, and Kerri Hunter.

Mrs. Fred Seely, who and her two children are also tenants in the apartment house.

The apartment house contains 34 suites. Eight of the tenants have moved out since Landlord Kraft offered an increase in rent. Six others have not yet stated their attitude on the matter while the other twenty are determined to remain in their apartments at the old rate. Kraft is just as determined that they shall pay the increase or get out.

TRY 4 MEN FOR BIG AUTO THEFTS

Four men, charged with the largest of more than \$100,000 worth of automobiles from Philadelphia and New York, went on trial before Justice Morton and a jury in Federal Court today.

They were Louis Schwartz, Louis Koffler, John J. Silverman and Abraham Fower, said to be members of a gang engaged in extensive stealings of high-priced cars.

About thirty witnesses from Philadelphia and New York were on hand, having identified parts recovered by the Department of Justice as being from their cars.

According to the authorities the cars were taken to Hartford, where the numbers were removed and new numbers stamped on. Then the machines were shipped to Boston and sold through second-hand dealers.

FORD CAR PRICES CUT \$40 EACH

Detroit, Oct. 2.—Reduction of \$40 in the price of the four-door sedan and smaller reductions in the prices of the Ford runabouts, touring car, coupe, chassis and one-ton truck have been announced here by Edsel B. Ford, president of the Ford Motor Company.

Following is the list of Ford cars showing the price reductions F. O. B. Detroit:

Runabout, \$269 to \$229; with starter and demountable rims, \$309; touring car, \$299 to \$259; with starter and demountable rims, \$359; coupe, \$339 to \$299; four-door sedan, \$735 to \$695; Ford chassis, \$235 to \$200; one-ton truck, \$350 to \$310.

FEWER NUMBER OF BUSINESS FAILURES

New York, Oct. 2.—There has been a progressive reduction in business mortality each quarter this year. Failures for the third quarter were 3,775, and involved \$98,343,359 in assets. For nine months of 1922 insolvencies were 12,495, for 1921, 167,637, a reduction of about 97 per cent. in number and liabilities from the same period last year.

BOTH HIS PARENTS HAVE NEW WIVES

Father Fights in Court to Obtain Permanent Custody of His Child

Little George N. Anthony has crowded a lot of experience into his nine short years. He has been kidnapped twice, has had two mothers, his real one and a step-mother, and is now the central figure in a divorce sequel.

George's adventures are disclosed in a motion before the Suffolk Court divorce session, in which Attorney Ralph E. Evans endeavors to have the lad's address made permanent with his father, James N. Anthony of No. 31 Pearl street, Chelsea. The father was the last one to kidnap George.

FATHER WON DIVORCE

The youngster's meanderings have been in proceedings in 1921 when Mr. Anthony obtained a divorce from his wife, Madeline N. Anthony, on grounds of desertion. The divorce, granted by Judge Flynn, was uncontested, but there was no order as to the custody of the boy who then was living with his mother's mother, Mrs. A. A. Harwood, of 100 Savin Hill ave., Dorchester.

Anthony subsequently remarried. George continued living with his mother for a time, and then he went to live with his step-mother, Mrs. Anthony, who had married a second time.

One day, an Attorney Evans' recall, the boy was met on the street by his grandmother and invited to take a trip to the beach. He ran into the house and his step-mother dressed him up for the trip. George didn't come back that night. Consequently his father made a complaint to the district court at Chelsea.

KIDNAPED AGAIN.

Apparently acting on the theory that "to have is to hold," the father went out to Dorchester, and "kidnaped" again was written in the lad's history. That was two months ago. George's address has been in Chelsea street, and the district court action has been pending.

Meantime, efforts to nerve legal papers on the former Mrs. Anthony have been fruitless. Investigations, however, have disclosed that she too, has married a second time.

Her second marriage, according to an affidavit in the case was in New York City on June 19, 1932. This affidavit shows that Mrs. Anthony is married to Francis Rhodes, a civil engineer. The couple are now believed to be in Honolulu where Rhodes is in army service.

ITALIAN PRINCESS' CONDITION BETTER

Turin, Oct. 2.—A more favorable turn in the illness of Princess Giovanna, titled daughter of the King and Queen of Italy, was noted today. It is believed the idea of an operation had been abandoned. Care is being taken to conceal the condition of the princess, who is believed to be in a precarious condition.

VICTIM OF ROBBERS TRAPS 2 SUSPECTS

Pelle Mustaki of No. 82 Dover street, told police he was lured to a room in East Dedham street and robbed of \$50. The man who answered the robbery, accused, but Felix Belok of two companions and called the police. They gave the names of Leon Wangskaki of Everett street, West End, and Felix Belok, his room-mate. They are charged with robbery.

Telegraph Briefs

Washington—Delegates from twenty-two nations assembled today for the opening of the World's Economic Conference, which, after two days' sessions, will transfer to Philadelphia and later to Syracuse, N. Y., to continue until October 10.

Minneapolis—Mrs. F. E. Richard, widow of one of the Mer Rouge victims of a Marquette parish hooded band on August 24, 1932, and Betty Whiteside, star witness for the state in the Marquette shooting and kidnapping investigation at Eastport last January, were married here.

More Entries in Health Show Contest at Mechanics Building

Two children of Mrs. G. Epstein, No. 22 Woolson street, Boston.

GERMANS SEIZE 400 LEADERS IN INSURRECTION

Berlin, Oct. 2.—A session of the Reichstag at which Chancellor Stresemann is expected to deliver his statement on foreign affairs and present the government's economic program has been called for five o'clock this afternoon.

Officers of the Reichwehr (National Defense troops) over those who were army leaders in the days of the empire, have pledged their services to support the republic and the constitution. The military censorship continues in effect.

Bavaria remains quiet, under the iron rule of the Reichwehr. Bavaria remains quiet, under the iron rule of the Reichwehr.

August von Kahr, former Bavarian Premier, now Commissioner-General, with powers of a dictator, is quietly but firmly working to promote the Nationalist cause and to return to a Bavarian monarchy.

Dusseldorf Security Police Wiped Out

Dusseldorf, Oct. 2 (A.P.)—The security police force of the city, which has been formally charged with the responsibility for last Sunday's rioting, in which nearly a score of persons were killed and more than 400 injured, has been derided out of existence by the authorities of occupation. The definite dissolution of the force was announced today by French headquarters here.

SNOW CAPS PEAKS OF FRANCONIA RANGE

Concord, N. H., Oct. 2.—A tourist who stopped in Concord today, said that snow capped the peaks in the Franconia section of the White Mountains.

Tells Why She Had Broker Arrested

Entered in the Health Baby Show Contest. Above, Jackie and Peggy Nugent, No. 19 Crocker street, Somerville. Below, Jack Gordon, Winton, No. 4 Dwight street, Brookline.

EX-DRY AGENT TELLS BRIBE OFFER

Harold L. Harvey, former prohibition agent charged with accepting bribes, took the stand in his own defense in the trial before a Federal jury today.

He corroborated the previous testimony of Joseph Weisenberg, 100 W. Beach of Springfield, who with John W. Boasche of Springfield, is charged with conspiracy.

"I might as well be frank with you," the proportion is \$15 a month. I've got to be very careful. How much more do you represent?" Weisenberg, the witness testified, "I represented myself and Phillips. Then he asked if I could get other subconscripts from Springfield and Holyoke."

Harvey quoted Weisenberg as replying that \$15 was too much and that \$10 was really more than they could get. Weisenberg then added that if Phillips could get rid of some of the small dealers who were cutting into the bigger ones, they might get more money.

TEST BIG NON-RIGID AIRSHIP TOMORROW

Bellefonte, Pa., Oct. 2.—The biggest non-rigid airship, as yet given its first test flight today morning, according to Major John A. Bregg, commanding officer of Scott Field, near here.

The craft is 222 feet long, has a diameter of forty-nine feet and with the car suspended is fifty-five feet high. It has a capacity of 200 people. It is a masterpiece of design. If the test flight is successful, the ship will be flown to the races at St. Louis the same day.

SNOW CAPS PEAKS OF FRANCONIA RANGE

Concord, N. H., Oct. 2.—A tourist who stopped in Concord today, said that snow capped the peaks in the Franconia section of the White Mountains.

MAJOR GREET BRITONS; GIVES OUT BOOKS

Several prominent British subjects visited City Hall today, including the Mayor's secretary, Sir Alfred Cope. It was announced that the former British Premier would visit Boston Wednesday, October 3.

Plans for his reception have not been completed. His secretary says invitations to have Mr. George speak here are numerous. He will probably be the guest at a dinner held by the State and City.

Mr. Lloyd George arrives in New York Friday and leaves at once for Montreal. He will visit several American cities and sail for England the first week of November. Mrs. George and daughter, Miss Megan Lloyd George, are with him.

British naval representatives who visited the Hall included Vice-Admiral Sir Michael Caine, commander-in-chief of the British fleet, and Sir M. S. Capewell, who arrived in the harbor today, and his flag lieutenant Henry Cecil, nephew of Lord Robert Cecil and Edward R. Grey, colonial general at this port.

Each of the visitors were presented with a "History of Boston for 1933." Mayor Curley posed for a photograph with the British visitors.

LIVING SHOE MODELS

The old exhibition building was devoted to a shoe display show, in which forty living models held the public eye.

In place of the milky M. Formore years a large impersonation furnished the public with a series of humorous freaks and wonders. The dairy show was declared to be the largest ever presented here.

Among the other features of the fair were the Indian village and a miniature stage coach drawn by six ponies.

FEAR LOSS OF LIVES IN FORMOSA QUAKES

Oskaka, Oct. 2.—A number of earthquake shocks occurred at Taito, east coast of Formosa, last Saturday, according to dispatches received here. The shocks caused considerable damage to houses and it is feared there were some casualties.

CITY TO SELL GAS AT "ACTUAL COST"

Charleston, W. Va., Oct. 2.—The city of Charleston is planning to sell gas at "actual cost" to its citizens. The city has been selling gas at a profit for several years. The new plan is to sell gas at a price that will cover the cost of production and distribution.

MR. GALLAGHER AND MR. SHEAN

By Jo Swerling

Oh, Mr. Gallagher, Oh, Mr. Gallagher, the girl surely plays a wicked game!

Get the way she pulled that drive! As sure as you're alive she makes the other women look quite tame!

Oh, Mr. Shean, Oh, Mr. Shean! Pipe the perfect stance! She has upon the green! She can surely stand the test, and what I like the best—

Her fine form, Oh, Mr. Shean!

Her good technique, Mr. Gallagher!

Copyright, 1933, by Jo Swerling. Published by F. O. S.

SPORTING AMERICAN

OWNERS OF ZEV MAY AGREE TO MATCH RACE WITH MY OWN

Turf Tangle of Thoroughbreds Now Chief Topic in Sport Circles

DISTANCE
IS ONLY
HITCH

By DAVIS J. WALSH

April 24, 1942.—Some time ago, the late Harry S. Truman and Alvin Karpis, the two men who have been making headlines since Saturday's news of the execution of the latter, met at a meeting in the city of New York. At last, the two men, who had been in the same city for some time, had decided to meet.

Sam Hildreth

Horsemen who are well-represented have told the writer that a compromise will be effected and a date set.

If no compromise is possible, however, it is believed that Zev will be named as the American candidate by the selection committee on Saturday, the last day on which the nomination can be made.

Speaking for the committee, August Belmont plants indicated its tendency toward the "old school."

Zev ran the same course, finalization, a mile and a half, viz. 2:30. My Own finished the same distance, with conditions virtually identical in 1932, in the first overstepakes.

At Lawrence Realization the mile was covered by Unity in 1:37.35, with Zev close on under-
albeit, contrary. Whereas, the first mile of the "old school" was covered by him in 1:37.35, and the second covered by him in 1:37.35.

"This is not conclusive, but it is seriously indicative."

However, in view of Brigadier-General William Mitchell's letter to Belmont, regarding action on Hill's death's card, which is due to be in a trial with Mr. Own, horsemen here seriously doubt whether the Jockey Club committee will have the temerity to name the Sinclair colt unless he proves his worthiness in an actual race.

It is this lack of conviction that will force a compromise, they say.

PUBLIC OPINION MAY FORCE SETTING.

Public opinion in the controversy is divided on the question of the respective ability of Zev and My Own, but is unanimous on the point

that a satisfactory and safe for the international race can only be determined through a trial.

The majority of racing men look upon Zev with favor. He was hoisted on in only one start this season, being kicked at the post in the Freakness and refusing to run.

Subsequently, he won the Kentucky Derby, the Belmont the historic Withers, the Pausanick handicap, the Lawrence Realization, the Autumn dash, the Queens County handicap, and the Railward handi-cap.

The distance he has covered on six furlongs to a mile, and six furlongs, proof of both speed and stamina.

In the Lawrence, Zov cast a roach and until recently was one of training for the 1976 Olympic Games. In previous refusals to race at the club, he asserted a race on Saturday at a mile and an eighth on 5/16 with the Mustangs. The club president, Club must take the consequences if anything happened to the horse."

"My Own came into late prominence in the Saratoga races, where he won four races, including the Saratoga Cup event. Last month he came here to beat Tandy in the Saratoga Stakes, one of the most official tests for the international match."

It is now at Laurel, and, according to Admiral Grayson, "in top condition, reports to the contrary notwithstanding."

Owl

on a day

The betting when the men stepped into the ring was three to one on Carpenter. The contest reminded the spectators of Becker's first defeat by Carpenter in 1914, when he was knocked out in sixty-four seconds.

BECKETT ANNOUNCED HE'S THROUGH WITH THE RING

Beckett announced that he has retired forever from the ring.

Carpenter is in such wonderful shape that his friends and admirers suggest that he should have another chance at Dempsey.

Carpenter received \$46,000 for his victory over Beckett. Beckett was paid \$15,000 for winning the new quick losing record.

Boston medical men care less for money and more for the actual employment of their skill than the majority of men. Dr. David L. Edsall.

A Fine Baby's Freckled, Thin Mother

She Made One Mistake. Many Mothers Make It

This is a sermon about protecting yourselves from colds, and especially about protecting your children. There is a foolish tendency to make light of coughs and colds. It is a tendency dangerous as well as foolish, for more than half of all deaths are due to colds, directly or indirectly. A series of colds will weaken the system, lower vitality and open the way for diseases of all kinds. In addition to that the cold is the beginning of consumption very often, and you know that consumption means death to more than two hundred thousand people in the United States every year.

A thin young woman got into the street car carrying in her arms a heavy, fat, beautiful baby. A sudden moving of the car overbalanced the tired young mother, but, fortunately, two or three of the passengers caught her and the baby and dropped them safely into a seat.

Then the other human beings studied sympathetically and affectionately the earliest young woman with her whole mind on the heavy, red-checked, good-natured baby less than a year old. The mother's face was reproduced in that of the child. But the mother's face was tired, anxious. Her body was thin. Her face, covered with freckles, told that she had been wisely staying out in the air with that wonderful baby. It was evident that all her thoughts and energies were devoted to the child, that held in its arms a doll, of itself enough of a load for the frail mother.

The serious mistake which this mother made—and which thousands make every day—was this:

She had a cold; she was nervous and self-conscious. And when she coughed she turned her head downward, away from the passengers, and coughed in the direction of the baby on her lap.

As a consequence it is absolutely certain that the child, unless its vitality is proof against that everything, WILL CATCH THAT MOTHER'S COLD AND SUFFER FROM IT.

How often have you seen women do this as they carry children, turning their heads downward in coughing, and running the risk of giving to their children a cold that may be dangerous—even fatal.

A mother with a severe cold should protect her child against that cold as she would against smallpox. If one of the children has a bad cold it should be kept isolated from the others, and it should be made to understand fully the danger from colds and the way to avoid catching them.

You know that the cold is caused by a germ which lodges on the surface of the mucous membrane in the nose, the throat or farther down in the lungs or the passages leading to them.

Coughing and sneezing represent NATURE'S EFFORT TO GET RID OF THESE GERMS. With every coughing fit the germs are expelled in great numbers. And nothing is more dangerous than to expose young children to contamination from such a source.

It has been shown that a public speaker with a bad cold can affect people thirty feet away from the platform. One individual coughed carelessly on one side of a car can easily give a cold to all the people on the opposite seats.

Of course, in our ignorant kind of civilization we are all of us exposed to all sorts of diseases constantly.

But parents—mothers—should realize the danger of colds to their children and protect them from themselves and from others.

No mother, if she had smallpox, would go near a child. She should be just as careful of any cold as she would of smallpox.

We hope that the earnest, nervous, conscientious, thin, freckled young mother with the big, fine baby will see this advice and take it in good part—and that many other mothers will do the same.

We Have the Cars

And Some Other Things

Copyright, 1923, Star Co.

The United States and Canada have 83 per cent. of all the world's automobiles and much less than 10 per cent. of the world's population. That's prosperity.

Some morose financiers worry because 75 per cent. of all the three million cars are purchased this year on the installment plan.

What's wrong about that? Each American needs two horses—one stationary, one on wheels. Nearly everybody buys a house on the installment plan, giving a mortgage. The main thing is to get an automobile. It is not extravagance to run into debt for an absolute necessity.

The Department of Commerce tells you that foreign countries where they are still slow about buying our grain are buying more meat, increasing their purchases of American meat. Meat is strength. Meat is power. Work and worry must have it. If Europe will buy enough, if our meat the farmers will forgive Europe for not buying so much grain. The grain is easily turned into meat, pork and beef.

Mexico denies that the Krupps and Stinnes from Germany are to buy the famous Mexican Durango iron mountains and start competing in the world's steel market, with Mexico and cheap Mexican labor as a base. That's good news for American steelholders in steel companies—although, of course, an American tariff could protect them.

This denial by Mexicans ought to mean that Americans are going to buy that mountain. If any but a Mexican is to run it, it should be run by an American.

The League of Nations solicits the United States at Geneva. We are told we are not acting in a civilized, nice manner, because we refuse to "ratify the St. Germain convention for control of traffic in arms."

The reverse language of the league gentlemen ought to enlighten those who say that the League of Nations does not mean ANY ATTEMPT TO CONTROL THE UNITED STATES. If the league thinks it has a right to tell us what we must do while we are NOT members, what would it think if we were foolish enough to BECOME members of that league?

BIGGEST EGG SHIPPING CENTRE

WATPAUCA, Wis., Oct. 2.—

This town is now rated as one of the greatest egg-shipping centres of the Northwest. One dealer is said to ship approximately a third of a million eggs weekly. The money paid producers by this single shipper is said to total more than \$5,000 a week during the Summer months, when eggs are cheapest.

Aged Woman Needs Clothes

Editor Helping Hand:

I am a woman seventy-five and have not been able to work for some time, as my feet are so sore and lame to go about. Now I have a chance in another town to work for my board, but have nothing to wear, and people don't like anyone around looking not respectably dressed. If anyone has a dark coat, size 44, and a skirt and a pair of boots, size 6 1/2, I would be very pleased to get them. I think I am getting most too old to do hard work, as my health has not been very good beside the lameness. Hope I am not asking too much. I feel very sensitive about asking for things, but I could get a home for the winter, and that means a great deal. B. M. E.

Offers Money Aid

Editor Helping Hand:

I wish you would send me the address of Mrs. C. F. R. who wrote such a beautiful letter to me, so I could cooperate with her, as it seems she has been to see this family, and I will help a little with money and anything else I can do. Mrs. H. Both C. F. R. and we will appreciate your help. Mrs. C. F. R. has been notified of your kind offer. MRS. M. E. G.

Needs Winter Coat

Editor Helping Hand:

I am the mother of four children, two girls, eight and eleven, and two boys, five and seven. I wonder if anyone could help me. I have a little money but I need clothing badly for them. I work every day, but make just enough money to feed them. If it would not be asking too much, I would be very glad to get it. MRS. M. E. G.

Cost and Toys

Editor Helping Hand:

Kindly send me the address of Mrs. B. D. for whom I have a coat, and also F. B. M. who asks for toys for a younger brother. Mine I have some baby clothes and sweaters I would be glad to give. MRS. M. E. G.

THE VOICE OF NEW ENGLAND

No Attention Paid to Anonymous Communications

Our Expert Shoppers

Editor Boston American: Being an Englishwoman, it is with more than passing interest that I note the unparagoned shopping ability of my American sister. In our country we trade with the same establishments from generation to generation. That, as you will see, precludes any chance of my becoming a bargain hunter. But here the clever shopper not only refuses to accept "something as good" but continues on her mission until she has not only found just what she wants but also at the price which satisfies her. MRS. LAURA DE FORREST.

THE HELPING HAND

Letters Not Answered Personally. No Attention Paid to Telephone Calls or Anonymous Letters. No Names Published.

Hard Time to Get Along

Editor Helping Hand: I wish to thank you for sending me the address of Mrs. H. I have written her and will be glad to help her. I have written before asking the address of clothing for a boy ten or twelve, as I have two good suits, shoes and stockings, and a coat to give away. I also have a good overcoat I would like to give a good man who needs one. The size is for a man five seven inches. It is in perfect condition. MRS. W. E. W.

Sick Man Needs Clothes

Editor Helping Hand:

Is there anyone who can spare a few clothes for a sick man? He has been unable to work for over three years. His size is 36 to 38 coat, pants 32, shoes 8 1/2. MRS. M. E. G.

Needs Clothes to Get Job

Editor Helping Hand:

I am a woman in the Army. I want to get a job. I have a child, and must go to the hospital for an operation, and my husband is getting "half off" next week. We are trying hard to save for him, but my husband's clothes are so poor I am afraid he will be difficult to get another job. His years of service in the Army. MRS. F. C. G.

Words from the Lips of Wise Men

THE man that hath no music in himself, nor he that cannot recieve it from others, is like a sullen bell, that cannot be rung.

Is it not, my dear friend, that we are all like sullen bells, that cannot be rung?

Is it not, my dear friend, that we are all like sullen bells, that cannot be rung?

Is it not, my dear friend, that we are all like sullen bells, that cannot be rung?

Is it not, my dear friend, that we are all like sullen bells, that cannot be rung?

Boston's fire loss in 1922 was \$3,318,932; smaller than in 1921, but much larger than in the years 1919 and 1920.

GOLDEN GOOSE EGGS ALSO HARD TO UNSCRAMBLE

By Herbert Kaufman

POINCARÉ unveils another monument, and more confidence. Speaking at Saint Mibiel, where Yankee blows shattered the chains of Lorraine, he appropriately recalls his country's debt to American valor, reminds the two peoples of their mutual glory there—then, as usual, on such occasions, mixes business with sentiment and discusses the latest phase of the indemnity mud.

Complaisance to occupation is but the first of those steps necessary to assure "the full victory guaranteed by treaty." Paris awaits Berlin's confirmation of words by works.

If Lloyd George is a judge, there'll be considerable waiting.

The greatest of modern statesmen believes that it is to take a vaster genius than Stresemann to arrange matters for M. Poincaré's satisfaction.

National determination "not to turn back on the road to triumph" conflicts with the little Welshman's theory that the one way to restore peace and procure reparations lies in magnanimous terms and an attitude of reconciliation.

Germany, according to cables, has not ceased her deliveries in kind, but France, nearly a year after her enemy assets, is about to purchase the fuel supplies which she had earlier been receiving free, and might still have the Quai d'Orsay not blunderingly plunged a bayonet into the Ruhr.

Miners won't work unless paid, and the operators, financially embarrassed by inflation and loss of income from idle properties, can't meet payrolls without France or the Reich providing the cash.

It's as hard to unscramble golden eggs as any other. Oklahoma's executive and Legislature are still at loggerheads. Governor Walton, explaining that there isn't time for a proper distribution of ballots, overrides contrary authority, revokes the call for an election and backs his play with the State militia.

Mussolini, who, Athens complains, has not yet withdrawn Italian fleets from Corfu waters, Parker, a Parisian of English descent, explained that he used the proceeds for gambling at Deauville and for furnishing his sweetheart's apartment. Quelle sentiment.

Maitre Hesse, advocate, admitting the facts, offered in extension the enormous sum which the corporation had made on French soil, its extensive speculations in exchange, "at the expense of the franc," and wound up with the declaration that the "company had too much, anyhow"; otherwise, Parker couldn't have found it so easy to tap the till. Will someone again kindly urge cancelling a four-billion-dollar war debt because of proverbial friendship?

By Garrett P. Serviss,

Famous Astronomer and Writer on Scientific Topics of Popular Interest.

STANDING under the full moon in August, at the edge of a park bordered with tall pines, and watching the moonlight stream across the brightly illuminated lawn, I have often wondered how the moon is heated under my feet, glowing like a bronze floor in the checkered shadows of the trees.

Attracted my eyes, and asked myself: Why do not my hands feel the heat of the moon when its light so powerfully affects my eyes? Let us see what explanation science has to say about that. Careful investigation has shown that the amount of full moonlight is about one 15,000th of the amount of sunlight.

But what is the result given by experiment? So far from being less, it turns out that the moon's heat is proportionately greater than the sun's. While reflecting only one 15,000th part of the solar light received upon its surface, the full moon radiates and emits proportionately less heat than light from the floor of the sun's radiation? Let us see what explanation science has to say about that. Careful investigation has shown that the amount of full moonlight is about one 15,000th of the amount of sunlight.

What Artificial Habits Do To City Folks

And the Scientific Warfare Now
Raging Over "Strap-
Hangers' Slouch,"
"Cinderella Feet"
and Other Curious
Physical Conditions
Caused by
Metropolitan Life

Miss Violet MacMillan

Who Won the Cinderella Prize for Having the Smallest Perfect Feet in New York City.

DOES modern city life distort the human body? Which is better for your health—to live in the city or the country?

You've heard these questions many times before—but here's a whole new set of answers.

As the answers are in some cases contradictory, you will be interested to determine with which you yourself agree.

This question has just come to the scientific forefront again because of sweeping charges that have been made against city life. The particular city under indictment was New York, but the charges apply generally to all big cities.

"New Yorkers are physically affected from hard work, from leaning over desks all day, from hurrying, twisting tasks that bend and unbalance the body—from continual strap-hanging that pulls up one shoulder, drops the other and leaves the body lopsided."

This and much more from Dr. S. Cameron Edleston, of California, in an address before a scientific body in the East.

"For hard work, you have to hand it to Father Kleckhopper. What the old gentleman needs is shorter hours of work, longer hours of play, physical training for everybody and more frequent vacations in the country."

Dr. Alfred G. Glascock, of Florida, declares that not only New Yorkers, but residents of all large cities inhabited by sedentary persons, live mostly on meat that is, for them, rank poison.

The common diet of meat, bread and potatoes, lopped off with sweets, is poisonous to people who work in offices. It causes more spinal curvatures and joint deformities than all the football games in America. Ten million children in this country are suffering with prematurely decaying teeth, fifteen million with other deformities.

"Sedentary persons should live mostly on milk, eggs, fruits and vegetables. Lemons are especially beneficial. If the

world knew their medical value to people who live in cities it could not raise enough to meet the demand.

To complete the indictment against the city, before taking up the views of equally respected authorities who disagree with these charges, Dr. W. Barnard, of Minneapolis; Dr. Ernest Gruft, of Elmhurst, L. I.; E. J. Martucci, of Philadelphia, and other experts, declare that New York women and city women generally, as well as the men to a lesser extent, are in danger of becoming a "weak-kneed race."

New Yorkers in particular are noted for being the smallest and most poorly-shaped feet in the country.

A comparison of the different sizes and shapes of men's and women's feet in various cities of the United States has been made as follows from statistical reports:

New York—Women, 4 1/2 B, with high heels; men, 6.
Chicago—Women, 4 1/2; men, 7; short pumps and wide toes popular with both.
San Francisco—Women, 4 1/2;

men, 7 1/2; French heels in favor with women.
St. Paul—Women, 6, with military heels; men, 8.
Detroit—Women, 4 1/2 to 5; men, 7 1/2 to 8.
Milwaukee—Women, 5 1/2; men, 8 1/2.
Los Angeles—Women, 5; men 8.
Washington—Women, 5, with high heels; men, 8.
Pittsburgh—Women, 5 1/2 to 6; men 8 1/2.

Philadelphia—Women, 5 1/2 to 6, with high heels in vogue; men, 8 to 9.
St. Louis—Women, 4 1/2 to 5 1/2; men, 8 to 9; with low-heeled, comfortable boots.

Summed up, these declarations, important if true, mean that city dwellers are generally worse off physically than people who live in the country.

But are they true? You may hold whatever opinion you happen to have, for the answer of science—or, rather, the various answers of individual scientists—are highly controversial.

The one point in this revived controversy which has awakened the most serious scientific interest is whether or not strap-hanging in subways, elevated trains and street cars has a tendency to make one shoulder drop and render people lopsided.

Anatomists are inclined to agree that it does if people do it regularly twice a day, and to recommend to you, if you are a strap-hanger, that you make a point of hanging alternately by the right and left hands, so that from day to day the strain and pull will be balanced.

An extremely interesting sidelight on this point has been discovered in an old English book dealing with the trial of a British governor, Sir Thomas Picton, for mistreating people who came under his rule on the island of Trinidad.

It seems that Governor Picton, to punish petty offenders, whether men or women, invented a strap-hanging trick of his own. He would fasten the culprit, standing by one wrist only, stretched above the head, so that the feet would just touch the ground.

In some cases the victim was fastened the other wrist to the opposite foot, so that only one foot could touch the ground, or, to make it

Miss Dorothy Knapp illustrating the correct position of the feet while clinging to a strap. Note the perfect alignment of the body and the ease and grace of her carriage.

It was, a sort of limited cone, which allowed the foot only a small wooden point to stand on.

He was tried and removed for subjecting a young girl, Louisa Calderon, to this punishment. An old drawing, present at the trial, which you see reproduced on this page, shows how it was done.

Now the extraordinary thing is that if you half shut your eyes and look at the picture of the girl clinging by one wrist to this drawing, you will note that the slope of the shoulder and the general attitude are almost identically those of any tired little city girl you can see hanging to a strap in a crowded subway.

And one reason why the punishment, invented by Governor Picton was denounced and abolished

was the fact that continued suspension to it made one shoulder permanently higher than the other.

"Science is inclined to believe that the analogy is a true one, and that unless city strap-hangers use opposite limbs from one day to another their shoulders tend to become uneven."

As to the other charges, there is less agreement. Dr. Mary Hutton believes that the city girl, generally, is more healthy and beautiful as her sister in the country. As to the matter of exercise, she points out that interest in modern girls' athletics is more or less centralized in the cities, and that with Y. W. C. A., Campfire Girls and hiking clubs, the city girl really takes, or can take, excellent care of her muscles. The same, in a general way, holds good for city men, according to her view and that of other physicians. A heavy majority of the best athletes, both men and women, according to statistics, come from cities, taking into consideration the proportionate population.

As for the question of diet, Senator Royal S. Copland, former Health Commissioner of New York, and other experts, point out that a great proportion of the best cream, milk, butter, eggs and fresh vegetables are consumed by city people, and that, generally, you can get as good food in a dairy lunch of a big city as you can on any farm in the country—perhaps better than on most farms, because the best stuff is sold to the city markets.

In the late war, city men measured up generally as well as the average hard-bred youths or the young men from small towns. The city man, on the average, was inferior only to the Far Western cowboy type and to the wood-chopping, pioneering fellow from Canada or Australia.

The question of complexion and skin is also controversial, though the city, with its rouge, cold-cream and cosmetics, seems to have the best of it scientifically. All skins fade as youth disappears, but actual scientific answer to the question "Is it better to live in the city or the country?" is that the only answer seems to be that it is healthy enough in either environment if you take care of yourself intelligently.

EXERCISES TO COMBAT FOOT FAULTS.

The Two Top Illustrations Show How to Contract Strap-hangers' Hips and Prevent Filling Arches. With Feet Bared, Stand Erect and, Slowly in This Position Twenty Times, Then Turn in the Toes and Go Through the Process Again, THUS STRENGTHENING THE ANKLES. Repeat This Exercise Twice Daily. The Two Central Illustrations Indicate How to Build Up Feet and Leg Muscles. Sit on a High Stool OR FIRM TABLE. Stretch the Legs Out, KEEPING THE KNEES STRAIGHT. Point the Toes First Toward the Floor and Then Toward the Shin. Repeat Twenty Times, Very Slowly. The Two Lower Illustrations Show How to Strengthen the Ankle Joints. Sit, and Turn the Sole of the Foot Upward, inward and outward.

Medbury Says—

By John P. Medbury

CHICAGO is planning to establish a municipal bureau for the prevention of suicide, and hereafter any man desiring to kill himself must consult this first.

OF course their idea is to try and talk you out of it, but you don't have to give in if you don't want to.

IF you're really tired of your life, you're not going to beg you to hang onto it any longer.

LIVING does a monotonous, and a man has to have some diversion once in a while.

HANGING is all right and drowsy, but you can't sleep, and there are several ways of entertaining yourself.

ANY fellow who can get fun out of applying himself is easily amused.

DYING is a wonderful sensation, but you can only enjoy it once.

ONE man who led a double life wanted to commit suicide, but he didn't know how to shoot himself twice.

HE planned to blow his brains out, but gave up the idea when his wife told him he didn't have any.

A LOT of men take their own lives just to show off. However, it's better to be a living snip than a dead spot.

THIS is a fast age and everybody should knuckle down while they're young and busy, but if you must kill yourself, you can do it better later on when you've got more time.

IF YOUR SON THREATENS TO RUN AWAY, TELL HIM TO DO SO.

How that young son of yours threatened to run away?

As the result of such a threat you, as father, are in the decision or action you vouchsafed which brought such a statement from him.

If you have backed down, he has you on the run and he knows it.

It may seem a bit hard, but when the youngster gets the "go the way" idea it might be a good thing to tell him to start as soon as he chooses.

If this does not stop the threats, doubtless a short stay from home would cure him.

It does some boys good to get a few hard knocks from disinterested outsiders, such as the world at large, give him away from home protectors.

One trip away from home will be likely to cause him more thoroughly to appreciate his home, and forever get that idea of "running away" out of his head.

If you threaten a fellow, give it to him—do not back down ever.

If he threatens to take matters in his own hands to leaving advice him to get a taste of the drinking an apparently homeless boy gets from the world in general.

EMBARRASSING MOMENTS

The Boston American will pay \$1 for every letter published as "The Most Embarrassing Moment in My Life." Address: Embarrassing Moments, Boston American.

While walking through one of the busiest sections of the city recently I was surprised to see many persons turn and smile at something about me. Looking down, I discovered that while going through one of the store's, a piece of artificial hair had become caught on my big and was hanging so noticeably down, causing me much embarrassment.
